

PurCool Tablets utilize a powerful formulation to keep condensate drain pans clean and free flowing. PurCool Tablets eliminate problems caused by plugged condensate drain pans and drain lines. Use PurCool Tablets in A/C condensate pans to prevent overflows and the costly water damage caused by such overflows. PurCool Tablets will control clogs, build up, odors, and corrosion in drain pans, condensate pumps, and humidifiers. Approved for computer room humidifiers. PurCool tablets are safe when used as directed. They are completely soluble in water and biodegradable. They will not leave any deposits on surfaces.

Directions: This product must be used in accordance to the following directions by HVACR professionals only. To clean a fouled drain, use two PurCool Tablets per ton. For ongoing preventive maintenance and protection, use one PurCool Tablet per ton of air conditioning per month. Place the tablets where they will come in contact with the condensate water. Ideally, place them away from the drain area so the treated condensate water will flow across the pan. For large pans place tablets at either end of the pan for good distribution. For fouled humidifiers, place two tablets in the in the reservoir every 4 to 6 weeks to prevent odors and buildup.
