This aerosol adhesive, with a wide web spray pattern, is one of the highest performing aerosol adhesives available. For both temporary or permanent bonding, this high solids product is ideal for uneven or porous surfaces and weight materials such as insulation and duct liner. Waterproof, flexible, and transparent, use this product for your toughest adhesive applications, including leather, cardboard, most plastics and cloth. This product contains NO CHLORINATED SOLVENTS OR OZONE DEPLETERS. Cleans easily with an adhesive remover containing petroleum distillates and/or the citrus extract d-limonene.

DIRECTIONS FOR USE: This product must be used in accordance to the following directions by hvac professionals only.

Always shake well before using. Never aim valve at face. Hold can upright and apply adhesive in a side-to-side motion 10 to 14 inches from surface. Not intended for use on vinyl. **TEMPORARY BONDS:** Spray surface, allow to become tacky then bond surfaces together. **PERMANENT BONDS:** Liberally spray both surface and material, allow to tack, then bond. **CLEANUP:** When finishing the spray application, always turn can upside down and spray for two seconds to clear valve and prevent clogging. If adhesive accumulates around nozzle wipe clear while wet. If dried in valve opening, remove with adhesive remover or replace actuator tip. To unclog tip or remove overspray, use an adhesive remover containing petroleum distillates and/or the citrus extract d-limonene.
