3. Composition/information on ingredients

General information:

The components are not hazardous or are below required disclosure limits.

4. First-aid measures

Ingestion:	Rinse mouth. Get medical attention if symptoms occur.		
Inhalation:	Remove exposed person to fresh air if adverse effects are observed.		
Skin Contact:	Take off contaminated clothing and wash before re-use. Wash with soap and water. If skin irritation occurs, get medical attention.		
Eye contact:	Flush thoroughly with water. If irritation occurs, get medical assistance. Remove contact lenses, if present and easy to do. Continue rinsing.		
Most important symptoms/effec	ts, acute and delayed		
Symptoms:	See section 11.		
Indication of immediate medical	attention and special treatment needed		
Treatment: Treat symptomatically.			
5. Fire-fighting measures			
General Fire Hazards:	No unusual fire or explosion hazards noted.		
Suitable (and unsuitable) exting	uishing media		
Suitable extinguishing media:	CO2, dry chemical, foam, water spray, water fog.		
Unsuitable extinguishing media:	Do not use water jet as an extinguisher, as this will spread the fire.		
Specific hazards arising from the chemical:	A solid stream of water will spread the burning material. Material creates a special hazard because it floats on water. See section 10 for additional information.		
Special protective equipment ar	nd precautions for firefighters		
Special fire fighting procedures:	No data available.		
Special protective equipment for fire-fighters:	Recommend wearing self-contained breathing apparatus. s:		
6. Accidental release measures	5		
Personal precautions, protective equipment and emergency procedures:	Personal Protective Equipment must be worn, see Personal Protection Section for PPE recommendations.		

Methods and material for containment and cleaning up:	Dike far ahead of larger spill for later recovery and disposal. Pick up free liquid for recycle and/or disposal. Residual liquid can be absorbed on inert material.		
Environmental Precautions:	Avoid release to the environment. Do not contaminate water sources or sewer. Environmental manager must be informed of all major spillages. Prevent further leakage or spillage if safe to do so.		
7. Handling and storage			
Precautions for safe handling:	Observe good industrial hygiene practices. Provide adequate ventilation. Wear appropriate personal protective equipment.		
Maximum Handling Temperature:	Not determined.		
Conditions for safe storage, including any incompatibilities:	Store away from incompatible materials. See section 10 for incompatible materials.		
Maximum Storage Temperature:	Not determined.		
8. Exposure controls/personal	protection		
Control Parameters:			
Occupational Exposure Limits None of the components hav	ve assigned exposure limits.		
Appropriate engineering controls:	No special requirements under ordinary conditions of use and with adequate ventilation.		

Individual	protection measures	, such as	personal	protective eq	uipment

General information:	Use personal protective equipment as required.
Eye/face protection:	If contact is likely, safety glasses with side shields are recommended.
Skin Protection Hand Protection:	Suitable gloves can be recommended by the glove supplier.
Other:	No data available.
Respiratory Protection:	A respiratory protection program compliant with all applicable regulations must be followed whenever workplace conditions require the use of a respirator. Under normal use conditions, respirator is not usually required. Use appropriate respiratory protection if exposure to dust particles, mist or vapors is likely. Use self-contained breathing apparatus for entry into confined space, for other poorly ventilated areas and for large spill clean-up sites.
Hygiene measures:	Observe good industrial hygiene practices.
