

4127-75

FEATURES: Blackhawk is an expanding foam coil cleaner. Formulated to deeply penetrate the coil, it liquefies to quickly remove grease, grime, or oily soils from deep within the coil. Blackhawk's formulation is safe and problem-free for cleaning evaporator or condenser coils in an occupied building; produces no objectional fumes. It is particularly effective on coils on refrigerators, coolers, and freezers located in restaurants and other commercial establishments. Can also be used on window air conditioning applications. Effective on traditional copper tube/aluminum fin coils or all aluminum coils — including the latest microchannel types. Blackhawk is suitable for cleaning metal grills, washable filters, exhaust hoods and other metal surfaces.

IDEAL TO USE IN AND AROUND FOOD PROCESSING AREAS: Blackhawk is acceptable for use as a general cleaner on coils and other surfaces in and around food processing areas, where its use is not intended for direct or indirect food contact. Cover or remove all food products in the area where the product will be used. Food preparation surfaces cleaned by this

product must be rinsed with potable water prior to preparing food.

DIRECTIONS FOR USE:

This product must be used in accordance to the following directions by HVACR professionals only. Turn off or disconnect power to unit being serviced. Remove any heavy or matted soils that can be easily dislodged by hand. Do not spray into electrical components. Shake well before using. Remove cap and point toward surface to be cleaned. **Condensers:** Inject cleaner into the coil. Blackhawk's expanding foam will penetrate throughout the coil. Wait a few minutes for foam to liquefy and remove grease and grime within coil. Rinse with a light spray of water. For stubborn or heavy deposits a repeat application may be necessary. **Evaporators:** Introduce cleaner into coil, it is not necessary to rinse — the condensate will rinse the coil.

CONTAINS: Contains (CAS#): Water (7732-18-5), Diethylene Glycol Monoethyl Ether (111-90-0), 2-Butoxyethanol (111-76-2), Tetrasodium Salt of EDTA (64-02-8), and Liquefied Petroleum Gas (68476-86-8).

DANGER

Contains gas under pressure; may explode if heated. Causes serious eye damage. May cause damage to organs through prolonged or repeated exposure.

PREVENTION: Wear eye/face protection. Do not breathe the mist or vapor. **IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER/doctor. Get medical advice/attention if you feel unwell. **IF ON SKIN:** Flush with cool water. Wash with soap and water. Obtain medical attention if irritation persists. **IF INHALED:** If symptoms develop move victim to fresh air. If symptoms persist, obtain medical attention. **IF SWALLOWED:** In the unlikely event of swallowing, contact a physician or POISON CENTER. Rinse mouth.

STORAGE: Protect from sunlight. Store in a well-ventilated place. Keep away from heat, sparks, and flames. Do not puncture or incinerate container. Do not expose to heat or store at temperatures above 120°F (49°C) as container may burst.

DISPOSAL: Dispose of waste and residues in accordance with local authority requirements.
