Nu-Calgon

**THERMO-TRAP<sup>®</sup>**  
Heat Absorbing Gel

Protect Components during  
Soldering, Welding, and Brazing

Eco-friendly

Non-Toxic/Non-Corrosive

100% Biodegradable

**DIRECTIONS:**

Before soldering or brazing, spray Thermo-Trap Gel onto the metal surface between the area being heated and the material to be protected. The amount required will vary depending on the thickness and heat-conducting properties of the metal being worked, the temperature of the heating tool, and the length of the time heat is applied.

**CAUTION:**

Even though Thermo-Trap Gel is non-toxic and contains water, harmless surfactants and inorganic based agents, prolonged use may cause dryness of the skin and may irritate the eyes if sprayed directly into them.

**DO NOT FREEZE**
