Evap Foam No Rinse®

EVAPORATOR COIL CLEANER

Self-Rinsing, Fast Breaking Foam

Cleans and Deodorizes
Ideal for Kitchen Applications

**Can Be Sprayed
Upside Down**

**Non-Corrosive to
Metals & Plastics**

**Pleasant
Lemon Scent**

This high performance product is a heavy duty foam detergent in the convenience of an aerosol. It is suited for use on most coils such as window air conditioners, roof top HVAC units, auto radiators, small air cooled equipment, small condenser and evaporator coils, metal filters, fan blades, and more. It can be sprayed in any position while the blasting stream easily reaches into tight areas. The detergent quickly and easily liquefies dirt, grease, oil, or other residue and deposits. The product will not harm drain pans, plastics, metals, or other materials in and around the area. Simply spray on and condensation generated will wash away the emulsified material. The pleasant lemon fragrance helps leave area not only cleaned but deodorized.

**IDEAL TO USE IN AND AROUND
FOOD PROCESSING AREAS:**

Evap Foam No Rinse is acceptable for use in and around food processing areas, where its use is not intended for direct or indirect food contact. Cover or remove all food products around the area where the product will be used.

DIRECTIONS FOR USE:

This product must be used in accordance to the following directions by HVACR professionals only.

Turn off or disconnect power to unit being serviced, and remove any heavy or matted soils first. Shake well. Remove cap and point toward surface to be cleaned. Thoroughly saturate the targeted area with product. Be sure foam evenly covers the entire surface. With this self-rinsing formula, the foam will break and condensation will completely rinse the emulsified material. However, you may wipe clean or rinse with water if desired or if using on non-condensation producing coils. For extremely stubborn or heavy deposits, repeat applications may be necessary. Also, before returning unit to service, be sure to allow adequate ventilation to clear any remaining scent of the product.

Contains (CAS#): Water (7732-18-5), Diethylene Glycol Monoethyl Ether (111-90-0), 2-Butoxyethanol (111-76-2), Tetrasodium Salt of EDTA (64-02-8), and Liquefied Petroleum Gas (68476-86-8).

DANGER

Contains gas under pressure; may explode if heated. Causes serious eye damage. May cause damage to organs through prolonged or repeated exposure.

PREVENTION: Wear eye/face protection. Do not breathe mist or vapor. **IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER/doctor. Get medical advice/attention if you feel unwell. **IF ON SKIN:** Flush with cool water. Wash with soap and water. Obtain medical attention if irritation persists. **IF INHALED:** If symptoms develop move victim to fresh air. If symptoms persist, obtain medical attention. **IF SWALLOWED:** In the unlikely event of swallowing, contact a physician or POISON CENTER. Rinse mouth.

STORAGE: Protect from sunlight. Store in a well-ventilated place. Keep away from heat, sparks, and flames. Do not puncture or incinerate container. Do not expose to heat or store at temperatures above 120°F (49°C) as container may burst.

DISPOSAL: Dispose of waste and residues in accordance with local authority requirements.
