

**FEATURES:** This high performance product is a heavy duty foam detergent in the convenience of an aerosol. It is suited for use on most coils such as window air conditioners, roof top HVAC units, auto radiators, small air cooled equipment, small condenser and evaporator coils, metal filters, fan blades, and more. It can be sprayed in any position while the blasting stream easily reaches into tight areas.

The detergent quickly and easily liquefies dirt, grease, oil, or other residue and deposits. The product will not harm drain pans, plastics, metals, or other materials in and around the area. Simply spray on and condensation generated will wash away the emulsified material. The pleasant lemon fragrance helps leave area not only cleaned but deodorized.

**PREVENTATIVE MAINTENANCE TIPS:** Apply Cal-Shield® coil protectant to enable coil operation at designed efficiency. Use Gel Tabs™ condensate treatment to protect from foul odors, backups and costly overflows.

**DANGER**

Contains gas under pressure; may explode if heated. Causes serious eye damage. May cause damage to organs through prolonged or repeated exposure.

**PREVENTION:** Wear eye protection/face protection. Do not breathe mist or vapor.

**RESPONSE: IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER/doctor.

Get medical advice/attention if you feel unwell.

**STORAGE:** Protect from sunlight. Store in a well-ventilated place.

**KEEP OUT OF REACH OF CHILDREN.**

**DISPOSAL:** Dispose of waste and residues in accordance with local authority requirements.

**Contains (CAS#):** Aqua (7732-18-5), Butane (106-97-8), Butoxyethanol (111-76-2), Tetrasodium EDTA (64-02-8), Ethoxydiglycol (111-90-0), Propane (74-98-6), Sodium lauryl sulfate (151-21-3). For more ingredient information visit [www.nucalgon.com](http://www.nucalgon.com). 800-554-5499.

**DIRECTIONS FOR USE:** This product must be used in accordance to the following directions by HVAC professionals only.

1. Turn off or disconnect power to unit being serviced.
2. Remove any heavy or matted soils prior to applying Evap Foam No Rinse.
3. Shake can well and thoroughly saturate coil starting at the bottom.
4. Foam will break and condensation will completely rinse the emulsified material.
5. If adequate condensation is not available, rinse with water.
6. Repeat application, if necessary.
7. Adequate ventilation may be needed to clear any remaining scent of the product.
