

- Eliminates foul and objectionable odors
- A true odor neutralizer, not a mask or cover-up
- Addresses odors caused by smoke, mold, mildew, stale air, sewer gas, pets, and more
- Long lasting fragrance from the unique liquid formula
- Ideal for use in open spaces or inside HVAC systems
- Available in Citrus Breeze or Cherry Blossom fragrance

Odor Neutralizer

ClenAir Liquid Formula

Description

ClenAir Liquid Odor Neutralizers are fast-acting deodorizing solutions. Unlike regular deodorizer products that simply use heavy perfumes and oils to disguise odors, ClenAir Liquid Odor Neutralizers eliminate odors through a chemical process while still leaving a clean fresh scent. ClenAir Liquid Odor Neutralizers are also biodegradable, non-toxic, non-staining, and ideal for use in homes and businesses.

Application

To remove odors, spray the ClenAir liquid odor neutralizer in the air of open spaces where objectionable odors are present, or spray directly at the source of the odor and surrounding areas. ClenAir Liquid Odor Neutralizer will remove odors at the source and provide a clean and refreshed space in your home or office.

Packaging

Citrus Breeze 32 oz.	6105-10
Cherry Blossom 32 oz.	6105-20

Directions

HVAC Applications:

Spray the ClenAir Liquid directly into the return vent as the system is running. Additionally, the return filter, ductwork, condensate pan, and surrounding areas can be sprayed.

Plumbing: Pour ClenAir Liquid down drains that are not regularly used and may emit foul odors. Spray around water leaks or after back-ups.

Restrooms: Spray ClenAir Liquid around the toilet, sink, shower and tub to keep the room smelling fresh.
