Eliminates Oil Change-Out

Addresses Trace Acids in Oil at Retrofit

Treats Up To 5 Ton A/C Systems

With Rx-Acid Scavenger® Technology

FOR PROFESSIONAL USE ONLY

4 fl. oz.

INSTRUCTIONS FOR USE:

This product must be used in accordance to the following directions by HVACR professionals only.

1. Use on air conditioning systems or heat pump up to 5 tons. Use entire contents of can.
2. Charge A/C ReStart through the low side service port using the Universal Treatment Injector Tool (P/N 4779-0) or any other commercially available injector to safely transfer 4 fluid ounces into the HVAC system. Refer to Nu-Calgon bulletin 3-17 for detailed instructions.
3. Use standard air conditioning, refrigeration service techniques and practices at all times.

Use two bottles for systems between 5-10 tons in size. For larger A/C systems, 15% or more of the oil charge needs to be A/C ReStart. Remove equal amount of existing oil first.

DANGER

Combustible liquid. Harmful if swallowed. May damage fertility or the unborn child. Causes damage to organs through prolonged or repeated exposure.

PREVENTION: Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Wear protective gloves/protective clothing/eye protection/face protection. Wash thoroughly after handling. Do not eat, drink or smoke when using this product. Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not breathe mist or vapor. In case of fire: Use appropriate media to extinguish.

IF SWALLOWED: Call a POISON CENTER/doctor if you feel unwell. Rinse mouth. IF exposed or concerned: Get medical advice/attention. Store in a well-ventilated place. Store locked up. Dispose of contents/container in accordance with local/regional/international regulations.
