

SPECIAL HD CALCLEAN® IS A FORMULATED TO BE THE TOUGHEST DETERGENT USED ON:

- Nicotine Tars
- Stubborn Greases
- Cottonwood
- Grime Build-up
- Accumulated Dirt and Residue
- Bugs

DILUTION RATIO	
Heavy Duty	4:1
Electronic Air Filters	4:1
Medium Duty	6:1
Routine Maintenance	8:1
No Rinse Evaporator	40:1

COIL GUN® SETTINGS	
Heavy Duty	Set Dial to B
Medium Duty	Set Dial to C
Routine Maintenance	Set Dial to D

Recommended to use Nu-Calgon's Coil Gun (4774-0)

FEATURES: Special HD CalClean® is a powerful, concentrated detergent designed to tackle heavily soiled condenser coils, evaporator coils, permanent filters, and other stubborn surfaces that resist cleaning from standard detergents. Its robust formula is specially formulated with corrosion inhibitors making it suitable for microchannel, all aluminum coils and typical OEM coated coils. For evaporators, a "no-rinse" cleaning can be achieved by mixing 1-part Special HD CalClean with 40 parts water, if condensation from running the unit is available.

APPLICATIONS:

- Condenser and Evaporator Coils
- Commercial RTU and Makeup AHU's
- Metal Grills, Washable Filters and Electronic Air Filters

DIRECTIONS: For use by HVACR professionals only:

Turn off or disconnect unit power and clear away heavy dirt from the coil.

Wear goggles, gloves and other protective garments. Mix Special HD CalClean cleaning solution according to dilution chart and apply to coil.

Wait 5-10 minutes before rinsing coil.

Evaporator – no rinse if condensation is available. Condenser and other applications – rinse with water.

For heavy soils, repeat application if necessary.

Return unit to operation.

Heavy Duty Coil Cleaner
For the Toughest Grease and Grime
Effective on Nicotine Tar

1 U.S. Gallon (3.8 Liters)

For Professional Use Only.
Keep Out Of Reach Of Children.

AFFECT ON ROOFING MATERIAL: Depending on its composition and condition, the color and finish of roofing material can be affected by coil cleaners (e.g. discoloration or tarnishing). It is recommended that the coil cleaner be tested on a small area of the roof prior to cleaning, particularly galvanizing or standing seam metal roofs. Do not use on aluminum or aluminum-coated roofing surfaces.

RUBBER ROOFS: In general, the product is safe on rubber except where the rubber roof is impregnated with aluminum chips (i.e. modified bitumen roof); do not use on rubber roofs that contain aluminum. Consider another Nu-Calgon cleaner.

DANGER
May be corrosive to metals. Causes severe skin burns and eye damage.

PREVENTION: Keep only in original packaging. Do not breathe mist or vapor. Wash thoroughly after handling. Wear protective gloves, protective clothing, eye protection and face protection.
RESPONSE: IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.

IF ON SKIN (OR HAIR): Take off immediately all contaminated clothing. Rinse skin with water.
IF INHALED: remove person to fresh air and keep comfortable for breathing.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor. Wash contaminated clothing before reuse. Absorb spillage to prevent material damage.

STORAGE: Store locked up. Store in a corrosion resistant container with a resistant inner liner.
DISPOSAL: Dispose of container in accordance with local, regional, national and international regulations.

KEEP OUT OF REACH OF CHILDREN.
CONTAINS (CAS#): Water (7732-18-5), Undeceth-7 (34398-01-1), Tetrasodium EDTA (64-02-8), Sodium xylene sulfonate (1300-72-7), Sodium metasilicate (6834-92-0), Alcohol ethoxylates, Sodium polyacrylate, Undecan-1-0l, ethoxylated, Sodium hydroxide, Trisodium nitrilotriacetate, Fragrance, Colorant.
