Nu-Calgon

↻ Dry and store the Clean Guard inside the bucket for repeated use.

Close the bag and turn on unit. The blower will discharge any remaining water into the bag.

Rinse with Nu-Calgon's Turbo Tank pressure sprayer (4781-00).

Wait 5-10 minutes before rinsing coil.

Wear goggles, gloves and other protective garments. Select a Nu-Calgon coil cleaner and apply to coil.

Mini-split bucket - Ensure drain is placed into bucket.

water is used.

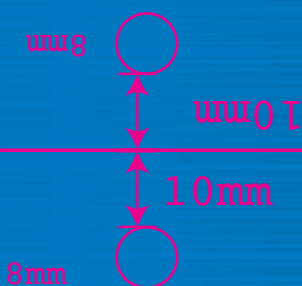

IMPORTANT: The Clean Guard does not cover exposed electronics. Please be sure to protect any electronics when cleaning with a cleaner and when pressurized.

Remove return filters and protective cover. Open the bag, tighten with the plastic wheel lock. Ensure the elastic band is adjusted and tight for a proper seal around the unit.

Disconnect power from unit.

DIRECTIONS: For use by HVACR professionals only.
