 PROFESSIONAL MINI-SPLIT MAINTENANCE BAG

Nu-Calgon

**DIRECTIONS:** For use by HVACR professionals only.

- Disconnect power from unit.
- Remove return filters and protective cover. Open the bag, tighten with the plastic wheel lock. Ensure the elastic band is adjusted and tight for a proper seal around the unit.
- IMPORTANT:** The Clean Guard does not cover exposed electronics. Please be sure to protect any electronics when cleaning with a cleaner and when pressurized water is used.
- Mini-split bucket – Ensure drain is placed into bucket.
- Wear goggles, gloves and other protective garments. Select a Nu-Calgon coil cleaner and apply to coil.
- Wait 5-10 minutes before rinsing coil.
- Rinse with Nu-Calgon's Turbo Tank pressure sprayer (4781-00).
- Close the bag and turn on unit. The blower will discharge any remaining water into the bag.
- Dry and store the Clean Guard inside the bucket for repeated use.
