Nu-Calgon

**Evap
Pow'r-C**
EVAPORATOR COIL CLEANER

Near Neutral pH
Heavy Duty Emulsifier
Concentrated, No Rinse

1 U.S. Gallon (3.8 Liters)

For Professional Use Only.
Keep Out Of Reach Of Children.

DILUTION RATIO	
Heavy Duty	3:1
Medium Duty	6:1
Light Duty	10:1

ODORS AND DRAIN PAN MAINTENANCE: For odors at the indoor coil, consider Nu-Calgon Evap-Fresh®, or Bio-Fresh® cd. To prevent drain pan odors or clogs, request Nu-Calgon PanPads, Gel Tabs, or Pan-Treat®.

SAFE FOR FOOD PROCESSING AREA: Evap Pow'r®-C is acceptable for use as a general cleaner on coils and other surfaces in and around food processing areas, where its use is not intended for direct or indirect food contact. Cover or remove all food products in the area where the product will be used. Food preparation surfaces cleaned by this product must be rinsed with potable water prior to preparing food.

FEATURES: Evap Pow'r®-C is a heavy-duty coil cleaner designed for all HVACR evaporators, including microchannel coils. The highly concentrated, slightly alkaline cleaner emulsifies the most stubborn soils and deposits. Evap Pow'r-C is formulated for enhanced performance for "no-rinse" cleanings while also causing no damage to coils. Evap Pow'r-C is recommended by many OEM's and is part of Nu-Calgon's Green Select product line. It is NSF A1 and K4 registered for safe cleaning in food processing applications.

- APPLICATIONS:**
- Evaporator Coils
 - "No-Rinse" Cleanings
 - Rooftop HVAC Units
 - Commercial Equipment

DIRECTIONS: For use by HVACR professionals only:

- Turn off or disconnect unit power and clear away heavy dirt from the coil.
- Wear goggles, gloves and other protective garments. Mix Evap Pow'r-C cleaning solution according to dilution chart and apply to coil.
- Wait 5-10 minutes before rinsing coil.
- Evaporator – No rinse if condensation is available. All other applications – Rinse with potable water.
- For heavy soils, repeat application if necessary.
- Return unit to operation.
