 Nu-Calgon

# Freez-Kontr<sup>1</sup> 35

INHIBITED 35%  
PROPYLENE GLYCOL

Freez-Kontr<sup>1</sup> 35 is a complete premix heat transfer fluid formulated with 35% inhibited propylene glycol that provides corrosion protection plus freeze protection to +2°F. The blue dyed product is non-corrosive and provides freeze and corrosion protection for hydronic, refrigeration or other closed loop systems. Safe for use where incidental contact with food or potable water could occur.

## DIRECTIONS FOR USE:

This product must be used in accordance with the following directions by HVACR professionals only.

1. Clean fouled closed loop system with Nu-Calgon System Cleaner, Eco-Lyme<sup>®</sup> or Liquid Scale Dissolver followed by clean water flush before adding Freez-Kontr<sup>1</sup> 35 into the system.
2. Determine if freeze or burst protection is required. Use freeze protection requirements is solution will be circulating by a pump. Freez-Kontr<sup>1</sup> 35 provides +2°F freeze point or -32°F burst requirement.
3. Determine system volume and fill closed loop system with Freez-Kontr<sup>1</sup> 35. Do not dilute with water, Freez-Kontr<sup>1</sup> 35 is a premix formulation.

Notes: For loops that utilize galvanized steel or CPVC materials, contact Nu-Calgon. Do not use Freez-Kontr<sup>1</sup> 35 for open loop systems. This product is particularly formulated for secondary loop refrigeration systems or for other applications where diluting with onsite water is not desired.

Always use a Nu-Calgon Glycol Refractometer (63101) to check freeze protection of the heat transfer fluid before leaving job site.

CONTAINS: Propylene Glycol (CAS No. 57-55-6).  
DO NOT STORE PAIL IN DIRECT SUNLIGHT.  
Consult SDS before use.
