

DIRECTIONS FOR CLEANING DIRTY EVAPORATORS:

1. Although Evap-Green™ is non-hazardous and is made with all natural ingredients, we recommend following industry standards by wearing goggles, gloves, and other protective garments when using this product.
2. System must be shut off.
3. Apply using any of the Nu-Calgon sprayers or other durable, low pressure plastic sprayers.
4. Prepare cleaning solution by mixing one part Evap-Green™ to three parts water. Add the water to the sprayer first, and then add Evap-Green™.
5. Spray cleaning solution onto the dirty evaporator. Rinsing is not required, particularly where there is sufficient humidity being condensed from the ambient air to provide a rinsing action.
6. Return system to service.
7. Rinse out sprayer, spraying wand, and nozzle.
8. When container is empty, rinse, replace cap, and dispose of properly.

VERSATILE SOLUTION:

Clean the indoor coil unit with Evap-Green - a natural, environmentally friendly coil cleaner. This non-foaming, non-toxic cleaner is outstanding for removing the dirt and grime that hinder heat transfer of any coil design. **Meets OEM specifications for cleaning aluminum tube/fin and microchannel coils.**

SAFER FOR DIRECT RELEASE INTO THE ENVIRONMENT - may be released into aquatic environments such as oceans, seas, lakes, rivers, creeks, ponds, ditches, sewers, drains, wetlands and all other waterways as well as dry lands, when the treatment and/or collection of wash water is impractical or unachievable. For more information on the Safer Choice recognition, visit www.epa.gov/dfsafeschoice.

SAFE FOR FOOD PROCESSING AREA: Evap-Green™ is acceptable for use as a general cleaner on coils and other surfaces in and around food processing areas, where its use is not intended for direct or indirect food contact. Cover or remove all food products in the area where the product will be used. Food preparation surfaces cleaned by this product must be rinsed with potable water prior to preparing food.

GREEN SELECT PRODUCTS:

Nu-Calgon's Green Select coil cleaners are specially formulated to be eco-friendly for any coil cleaning situation. Furthermore, the ingredients are continually re-evaluated to ensure they are the best available under Nu-Calgon's Green Select program.

Our unsurpassed dedication to provide new field solutions that meet U.S. EPA Safer Choice Program standards makes Nu-Calgon a market leader in environmentally responsible cleaners. Our Green Select family of products is safer for people and the environment than traditional coil cleaning products - and best of all, they are effective.

PREVENTION: Observe good industrial hygiene practices.
