

SAFER FOR DIRECT RELEASE INTO THE ENVIRONMENT

Evap-Green™ may be released into aquatic environments such as oceans, seas, lakes, rivers, creeks, ponds, ditches, sewers, drains, wetlands and all other waterways as well as dry lands, when the treatment and/or collection of wash water is impractical or unachievable. For more information on the Safer Choice certification, visit www.epa.gov/saferchoice.

SAFE FOR FOOD PROCESSING AREAS

Evap-Green™ is acceptable for use as a general cleaner on coils and other surfaces in and around food processing areas, where its use is not intended for direct or indirect food contact. Cover or remove all food products in the area where the product will be used. Food preparation surfaces cleaned by this product must be rinsed with potable water prior to preparing food.

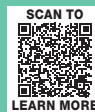

DILUTION RATIO

1 part Evap-Green™ | 3 parts water

Clean your indoor coil with Evap-Green™ - a natural and environmentally friendly coil cleaner. This non-foaming, non-toxic solution effectively removes dirt and grime that impede heat transfer in any coil design. It meets OEM specifications for cleaning aluminum tube/fin and microchannel coils.

APPLICATIONS:

- Evaporator Coils
- Residential and Light Commercial
- Campuses requiring EPA Safer Choice-certified products such as:
 - ▶ Schools and government facilities
 - ▶ Convenience and grocery stores
 - ▶ Municipalities

DIRECTIONS:

- Turn off or disconnect unit power and clear away heavy dirt from the coil.
- Wear goggles and gloves. Mix Evap-Green™ cleaning solution according to dilution chart and apply to coil.
- Wait 5-10 minutes before rinsing coil.
- Evaporator - no rinse if condensation is available. All other applications - rinse with water.
- For heavy soils, repeat application if necessary.
- Return unit to operation.
