# Pump Protector

FOAM-IN CORROSION PROTECTION

Winterizing Pumps

No Special Rinse

U.S.D.A. Approved

**DANGER**  
EXTREMELY FLAMMABLE.  
CONTENTS UNDER PRESSURE.

For Professional Use Only.  
Keep Out Of Reach Of Children.

Net Wt. 10oz. (284 Grams)

#### FEATURES:

For any pump that is periodically shut down and drained, protect it with Pump Protector. Ideal for pumps in cooling towers, swimming pools, vacation homes, marine and industrial settings, and auxiliary systems - this product prevents corrosion on impellers and other tight-clearance parts that can cause pumps to seize. Pump Protector keeps components lubricated, ensuring smooth, reliable startups. It's water-soluble, requiring no additional steps for restarting pumps. For drinking water systems, flush thoroughly by running water for a few minutes before returning the pump to service.

#### DIRECTIONS:

For use by HVACR professionals. Ensure proper ventilation.

Drain the pump.

Wear goggles, gloves and other protective equipment. Shake can well. Attach plastic tube (inside cap).

Invert can and dispense can into pump drain. Note: One can treats most pumps; large pumps may need more.

Run pump briefly or turn shaft by hand to coat surfaces.

#### DANGER

Extremely flammable aerosol. Pressurized container: may burst if heated.

**PREVENTION:** Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Do not spray on an open flame or other ignition source. Do not pierce or burn, even after use.

**STORAGE:** Protect from sunlight. Do not expose to temperatures exceeding 50°C / 122°F.

**KEEP OUT OF REACH OF CHILDREN**

**CONTAINS (CAS#):** Distillates (Petroleum) Solvent-dewaxed Heavy Paraffinic (64742-65-0), Isobutane (75-28-5), Propane (74-98-6), Alcohols, C12-14, Ethoxylated (68439-50-9).

**WARNING:** This product can expose you to chemicals including Diethanolamine, which is known to the State of California to cause cancer. For more information go to [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov).
