200 Tablets

Keeps drain lines flowing

Prevents costly overflows

Controls foul and musty odors

Approved for computer rooms

- Easy to use tablet
- Non-corrosive to metal
- Dissolves completely
- Non-toxic and biodegradable

DIRECTIONS FOR USE:

For use by HVACR professionals.

CONDENSATE PANS: If the pan is noticeably clogged, first use the Nu-Calgon Gallo Gun to clear the clog before placing in the PurCool Tablet.

1. Locate proper placement for the PurCool Tablet, which is away from the drain line opening and where the tablet will achieve maximum contact with the condensate.
2. Place in the correct number of PurCool Tablets for your system size. Treatment size is one PurCool Tablet per ton of system size per month.
3. For systems with high condensate flows, you can double the treatment size of tablets.

For larger systems where the use of many tablets is impractical, consider Nu-Calgon's larger sizes of Gel Tabs or PurCool Strips.

For systems that require control of waterborne bacteria, use Nu-Calgon's PanPads.

HUMIDIFIERS: PurCool Tablets can be used to condition humidifier water in order to prevent odors and deposit build-up. Use 2-4 tablets every four to six weeks as needed. Clean and rinse out the humidifier reservoir on a regular basis.

For Professional Use Only.
Keep Out Of Reach Of Children.

DANGER

Causes skin irritation. Causes serious eye irritation. May damage fertility or the unborn child.

PREVENTION: Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wash hands, forearms and face thoroughly after handling. Wear protective gloves, protective clothing, eye protection, face protection.
