Nickel-Safe

ICE MACHINE CLEANER

Rapid Scale Remover

All Makes and Models

For Use In Food Areas

Nonfood Compounds
A3

For Professional Use Only.
Keep Out Of Reach Of Children.

16 fl. oz. (1 pt) (473 mL)

DIRECTIONS: For use by HVACR professionals only.

Put on gloves and goggles, then turn off machine, discard ice, and remove scaled parts.

Soak parts in a solution of 3 oz. Nickel-Safe Ice Machine Cleaner per gallon of warm water until deposits are gone; use a soft brush for stubborn deposits.

Wipe down the machine interior with the same solution, rinse with potable water, and replace cleaned parts.

Add Nickel-Safe Ice Machine Cleaner per manufacturer's instructions and run the cleaning cycle; use 5 oz. per gallon of water in the machine if no instructions are available.

Run the cleaning cycle, repeat as needed for heavy scale, and flush with potable water for at least 30 seconds. If no cleaning cycle exists flush the machine for a minimum of 5 minutes.

Rinse the bin with potable water.

Sanitize Recommended: Sanitize with IMS-III Sanitizing Concentrate (4211-34).

Return to service and discard the first batch of ice.

APPLICATIONS:

- Nickel or Tin Plated Evaporators
- Cubers
- Flakers
- Drum and Tube Machines
- All makes and models
