Keeps drain lines flowing

Prevents costly overflows

Controls foul and musty odors

Approved for computer rooms

- Easy to use tablet
- Non-corrosive to metal
- Dissolves completely
- Non-toxic and biodegradable

#### DIRECTIONS FOR USE:

For use by HVACR professionals.

**CONDENSATE PANS:** If the pan is noticeably clogged, first use the Nu-Calgon Gallo Gun to clear the clog before placing in the Pan-Treat.

1. Locate proper placement for the Pan-Treat, which is away from the drain line opening and where the tablet will achieve maximum contact with the condensate.
2. Place in the correct number of Pan-Treat for your system size. Treatment size is one Pan-Treat tablet per ton of system size per month.
3. For systems with high condensate flows, you can double the treatment size of tablets.

For larger systems where the use of many tablets is impractical, consider Nu-Calgon's larger sizes of Gel Tabs or PurCool Strips.

For systems that require control of waterborne bacteria, use Nu-Calgon's PanPads.

**HUMIDIFIERS:** Pan-Treat tablets can be used to condition humidifier water in order to prevent odors and deposit build-up. Use 2-4 tablets every four to six weeks as needed. Clean and rinse out the humidifier reservoir on a regular basis.

#### DANGER

Harmful if swallowed. Causes skin irritation. Causes serious eye damage.

**PREVENTION:** Wash thoroughly after handling. Do not eat, drink or smoke when using this product. Wear protective gloves/protective clothing/eye protection/face protection.

**RESPONSE: IF ON SKIN:** Wash with plenty of water. If skin irritation occurs: Get medical advice/attention. Take off contaminated clothing and wash it before reuse.

**IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

**IF SWALLOWED:** Call a POISON CENTER or doctor/physician if you feel unwell. Rinse mouth.

**STORAGE:** Store away from incompatible materials.

**DISPOSAL:** Dispose of contents/container in accordance with local/regional/national/international regulations.

**KEEP OUT OF REACH OF CHILDREN.**

**CONTAINS (CAS#):** Benzyl-C12-18-alkyldimethyl ammonium chlorides (68391-01-5), Urea (57-13-6).
